## Fully-Automated Event Delivery Service Enables You to Build on Top of Your Data

HasOffers' Firehose is the fastest and easiest way for you to extract and load large complex data directly into your proprietary technology; providing real-time actionable data at your fingertips. Our fully-automated event delivery service allows clients to receive a live stream of impressions, clicks, conversions, and adjustments – without the cost of creating and managing a complex system.

“ The moment we heard that Firehose was a viable solution, we jumped in the air because we knew that we could use Firehose to take the data into our system, analyze it, and slice and dice it to the way we wanted to do – and provide the insights and the algorithm to use it within our own company. ”
